Summary

Third-year B.Tech. Information Technology student at IIIT Lucknow with a strong foundation in Data Structures & Algorithms, object-oriented programming, and software engineering principles. Hands-on experience developing full-stack applications, backend services, and scalable systems. Proficient in problem-solving, database management, and collaborative software development, with a focus on writing efficient, maintainable, and reliable code.

Education

Indian Institute of Information Technology (IIIT) Lucknow — Lucknow, India
Bachelor of Technology (B.Tech) in Information Technology; ***CGPA: 8.8*** — *Aug 2024 – Jun 2028*

- **Relevant Coursework:** Data Structures & Algorithms (DSA), Database Management (DBMS), Object-Oriented Programming (OOP), Operating Systems, Computer Networks.

Achievements & Problem Solving

- LeetCode: Rated **Knight** (Max rating: **1857** | Solved **400+** problems natively focusing on core DSA patterns).
- Codeforces: Rated **Specialist** (Max rating: **1423** | Solved **600+** competitive programming problems).
- CodeChef: Rated **3 Star** (Max rating: **1638** | Solved **300+** problems).
- Secured a **rank of 106** among **3000+ participants** in the **STARTERS217 CodeChef Contest**.
- Secured a **global rank of 1295** among **35k+ contestants** in LeetCode Weekly Contest 505.
- Secured a **global rank of 1586** among **27k+ participants** in Codeforces Educational Codeforces Round 191 (Div. 2).
- Winner (**2nd Place**) in the **TechSprint WinterHack 2026** (GDG), among 82 teams nationwide.
- Ranked in the **Top 10** among **180+ teams** across India in the **iQOO Hackathon 2026**.

Skills

Languages: C++, Java, Python, JavaScript, SQL, Solidity, Bash, C
Developer & Testing Tools: Git, GitHub Actions (CI/CD), Jest, Cypress, Linux, Postman
Web Architecture RESTful APIs, Microservices, Distributed Systems, JWT/OAuth, FastAPI, WebSockets
Databases: MongoDB, MySQL, PostgreSQL
AI/ML: Generative AI, LLMs, LangChain, Deep Learning
Web3: Solana, Chainlink, Farcaster, Smart Contracts, IPFS, Polkadot AssetHub, Wagmi

Projects

RENZO | JavaScript, React, Node.js, MongoDB, Socket.IO, OAuth, JWT — Live Demo

- Independently built and deployed a full-stack AI chat platform featuring **real-time response streaming**, collaborative conversations, and permission-based access control.
- Implemented secure authentication using **Google OAuth**, **JWT**, and **HttpOnly cookies**, enabling protected API access and permission-aware collaboration on shared conversations.
- Developed a controlled **JavaScript execution sandbox** with timeout enforcement, output limits, and temporary file cleanup to improve execution safety and resource management.

Yaatra AI | Node.js, Python, FastAPI, React, MongoDB, CrewAI, — Live Demo

- Implemented secure authentication and session management using **JWT** access and refresh tokens in HttpOnly cookies, with **Nodemailer**-based OTP verification and password reset functionality.
- Improved client-server reliability by implementing **Axios retry interceptors** to handle ML server cold starts and transient request failures, ensuring more resilient communication with the AI backend.
- Integrated a **Python/FastAPI** microservice powered by **CrewAI** and the **Gemini API** to generate personalized travel itineraries based on user preferences, budgets, group size, and trip duration.

Open Source Contributions

Sugar Labs (Music Blocks) | Open Source Contributor — PRs Link

- Engineered an automated dependency management pipeline using **Renovate Bot**, configuring smart package grouping and CI execution rules to streamline secure updates for a large-scale repository.
- Optimized **GitHub Actions** CI/CD workflows by implementing conditional execution logic for **Cypress E2E** and **Jest** test suites, reducing redundant pipeline runs.
- Actively reviewed pull requests from other contributors to ensure high code quality and prevent bugs from reaching production.

Positions of Responsibility

Google Developers Group (GDG) – Web Wing — IIIT Lucknow
Technical Lead — *Sep 2026 – Present*

- Led technical workshops for 200+ peers, covering scalable architecture, code reviews, and distributed systems design.

Axios – Web3 Wing — IIIT Lucknow
Coordinator — *Aug 2026 – Present*

- Mentored junior developers on SDLC best practices, focusing on CI/CD workflows, issue tracking, and writing production-ready code.
